

CLEANING INSTRUCTIONS WHEN MOVING OUT

1st January, 2017

Before moving out, the resident must clean and empty the apartment according to cleaning instructions currently valid. These cleaning instructions apply only to this contractual relation.

When cleaning, pay special attention to the following issues:

Clean all the cupboards, shelves and doors and other spaces and surfaces.
Sweep/h Hoover and wash the floor surfaces of all the spaces.
Clean all doors and doorposts.

Clean also your courtyard, your balcony and your storage room. Do not leave any things in the apartment, balcony, courtyard or storage room.
Remove your own lamps. The roof casings must be in their places on the ceiling, the tenant is charged the missing ones.

Rooms with floor gully:

Clean the toilet bowl, the hand basins, the shower corner/bathtub and all the taps.
Clean the floor gullies.
Clean the exhaust air valves.
Clean the benches of the sauna.
Clean the walls and the floor.

Kitchen:

Clean and defrost the refrigerator, the cooler and the freezer.
Beware, that melt waters do not flow on the floor. Switch off the power from the refrigeration equipment and leave the doors properly open after the cleaning.
Clean the exhaust air valves and the grease filter of the cooker hood.
Clean the plates of the electric stove, the oven and the baking trays. Pull the stove out of its place and clean the adjacent cabinet walls, the back wall and the sides of the stove.

Shut all the doors and windows when leaving the apartment. Take only the normal household waste into the waste container of the building. Every resident must deliver him/herself the old furniture, mattresses etc. and the hazardous waste to the landfill or the hazardous waste point.

In case the cleaning or emptying has been neglected completely or partially, and it must be contracted out to a cleaning company, the moving resident is charged the costs.
